The investment objective of the Crawford Dividend Growth Fund is total return. Total return is comprised of both capital appreciation and income. The Fund invests primarily in common stocks of large capitalization companies that demonstrate a consistent pattern of earnings and dividend growth. Crawford Investment Counsel, Inc. utilizes a bottom-up approach to stock selection, focusing on company fundamentals. Crawford seeks high-quality companies with strong balance sheets, predictable earnings and cash flow growth, and a history of dividend growth. Crawford's goal is to identify companies that the Advisor believes have market prices that do not reflect their true values and that have above-average total return potential.

The Fund is managed by John H. Crawford, IV, CFA and Jon D. Christiansen, CFA. They are supported by a team of 6 investment professionals at Crawford Investment Counsel, Inc. and have an average investment experience of 18 years.

²Harmonic Average

Holding, sector, and S&P Common Stock Rating weightings are calculated as a percentage of the portfolio's total net assets. Portfolio characteristics are calculated based on per holding data averaged across the entire portfolio on an asset weighted basis. Information provided with respect to the Fund's portfolio holdings, sector allocations, and portfolio characteristics are current as of December 31, 2019 and are subject to change at any time. S&P Common Stock Ratings place stocks in categories based on the growth and stability of earnings and dividends of that stock. 10-Year EPS Variability is the measure of the volatility of a company's annual earnings over the past ten years. Return on Equity is a measure of profitability that calculates how many dollars of profit a company generates with each dollar of shareholder's equity. P/E Ratio (Next 12 Months) is a measure of a company's current share price compared to its forecasted per share earnings. Estimated Long-Term EPS Growth Rate is the estimated 3-5 year earnings per share growth rate.

The S&P 500 Index and Russell 1000 Value Index are widely recognized, unmanaged indices of equity prices and are representative of a broader market and range of securities than is found in the Fund's portfolio. The Index returns do not reflect the deduction of expenses, which have been deducted from the Fund's returns. The Index returns assume reinvestment of all distributions and do not reflect the deduction of taxes and fees. Individuals cannot invest directly in the Indices, however, an individual can invest in exchange traded funds or other investment vehicles that attempt to track the performance of a benchmark index.

Investing involves risk, including loss of principal. There is no guarantee that this, or any, investing strategy will succeed. There is no guarantee that a company will pay or continue to increase dividends. Investing in "value" stock presents the risk that the stocks may never reach what the Advisor believes are their full market values.

You should carefully consider the investment objectives, potential risks, management fees, and charges and expenses of the Fund before investing. The Fund's prospectus and summary prospectus contain this and other information about the Fund and should be read carefully before investing. You may obtain a current copy of the Fund's prospectus or summary prospectus by calling 1-800-431-1716. Past performance is no guarantee of future results. The investment return and principal value of an investment in the Fund will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.
